

ATRIE NetSpan-2222AF2/2222A

Manageable Modular Fast Ethernet Switch:
24-port 10/100Base-T/TX
16-port 10/100Base-T/TX + 1 slot for M800 Series Modules

This new product line provides more customisation options to the users. The NetSpan-2222AF2/2222A is specifically designed to solve the multi-connectivity issue.

The NetSpan-2222AF2/2222A is a Manageable Fast Ethernet Switch in compact size, which equips eight ports on 10/100Base-T/TX. It features several management functions such as SNMP and RMON, and therefore it is an ingenious and yet simple answer to today's complicated networking needs.

NetSpan-2222A is developed based on 24 fixed TX ports. As other members of the NetSpan-2000 line, NetSpan-2222AF2/2222A supports several management functions ranging from port-based VLAN and security to QoS for priority queuing. With the aid of these advanced technologies, NetSpan 2222AF2/2222A is definitely the savior to network managers!

*NetSpan-2222AF2
+ FT860*

Key Feature

NetSpan-2222AF2: 1 optional slot allows for one Fast Ethernet M800 Series module, 10/100Base-TX or 100Base-FX or a combination, up to 8 ports. 16 ports for 10/100Base-TX, using RJ-45 connectors.

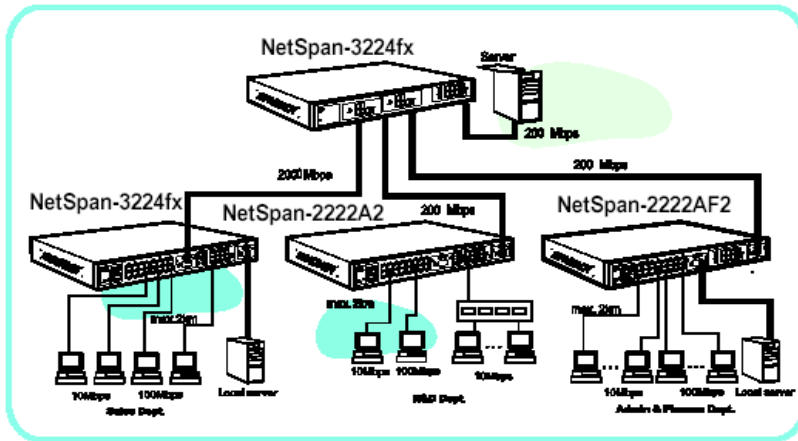

- Auto-negotiation for speed and duplex modes on TX port.
- True none-blocking architecture and full wire-speed forwarding rate.
- Store-and-forward mechanism.
- Back-pressure and IEEE 802.3x compliant flow control.
- Supports 12K MAC address and IEEE 802.1Q VLAN Tagging.
- MAC-based Trunking, up to 4 groups of 4 ports.
- Supports IEEE 802.1p (Quality of Service) for 4-level transmission priorities
- Supports port-security and port-mirroring.
- Front panel port status LEDs and reset button.
- Standard 19" rack-mountable size, one unit height.
